

The Daily News.

MONDAY MORNING, JULY 2, 1866.

LOCAL MATTERS.

SEE SECOND AND THIRD PAGES.

MESSRS. BAINES & BURKE have our thanks for a copy of the July number of *Harper's Magazine*.

OUTRAGE IN ARCHDALE STREET.—Last night a lady living in the neighborhood of the English Lutheran Church in Archdale-street, was struck by a brick thrown by one of a riotous party of negroes near by. She was knocked down and seriously injured.

THE IDEAL.—"Moonlight on the sea" has long been a favorite theme with ye lovers and the poets. Captain WILLY, ever thoughtful, has taken the idea to give a practical illustration of this sentimental situation, and accordingly designs propelling his *Idea* into the harbor this evening. See advertisement.

THE SOUTHERN CULTIVATOR for July, 1866, published at Athens, Ga., has come to hand. The number appears to be well gotten up, and contains numerous articles of striking interest on various agricultural subjects. The work is published at a low price and deserves Southern patronage.

MAYOR'S COURT, Saturday Morning, June 30.—The only case of interest before His Honor to-day was that of the proprietor of the Mills House Stables, charged with taking more than the rates allowed by the recent City Ordinance. His Honor decided that the Mills House coaches were not hacks, but carriages at hiring, and dismissed the case.

JOHN B. LAFITTE, Esq.,—This gentleman, with his family, arrived here from Paris via New York, on Saturday last, after an absence of four years. He returns with renewed health and an increased feeling of affection for his old home. His fellow-citizens may rest assured that his capacity and business intelligence will be largely devoted to rebuilding and restoring, to more than their former prosperity, the waste places around us.

DISTURBANCE ON THE BATTERY.—Yesterday afternoon two negroes, who were inclined to be disorderly on the Battery, were promptly arrested by the military guard, and taken to the Provost Marshal. This guard has now been on the Battery for several days, and has proved very efficient in preventing disturbances. This contributes much to the comfort and pleasure of the frequenters of that favorite resort, and the officer, whoever he may be, who caused the guard to be stationed, deserves the thanks of the whole community.

SODA WATER.—By reference to the advertisement in another column, it will be observed that Messrs. A. W. ECKEL & Co. have had such a "run" on their fountain, that they have been compelled to procure another. The new one is very handsome, equal to any in the city, and to be reserved for the exclusive use of the ladies. Here the angels will quaff their "nectar." But not and thirty mortals of the masculine persuasion must not think that their wants will not also be supplied. On the contrary, they will always find polite and prompt attention; but of course *place aux dames*. Mr. ECKEL's soda water is good,—in fact, A No. 1.

THE OPTICAL EXHIBITION at the College on Saturday night was a brilliant success. The chapel could not hold all the curious applicants. Many of the spectators had no very definite idea of what they were invited to see. But the humorous Professor, with his Drummond Light, soon made the whole matter clear; and exclamations of surprise and delight followed each other in rapid succession all over the house. Of course when the fortunate few, who had been thus privileged, returned home and told their friends of the splendid phenomena they saw produced, said friends were very anxious for an opportunity to enjoy the views on their own account. In compliance with the wishes of a great many such, another performance will be given to-morrow night. See advertisement.

W. Y. LETCHER, Esq.—By an advertisement which appears in another part of our paper, our readers will notice that our fellow-citizen, W. Y. LETCHER, Esq., has commenced the Brokerage, Exchange and Real Estate business at No. 25 Broad-street. This gentleman has strong claims on the patronage of his fellow-citizens. He was brought up to the business of a merchant in this, his native city, and his commercial knowledge was afterwards improved by ten years' experience as a Bank officer. Holding lately the lucrative position of Surveyor of the Customs, he yielded that place rather than take the test oath. The public having a necessity to employ a capable merchant in the above mentioned matters, will do well to call on Mr. LETCHER.

SHOOTING IN KING-STREET.—Yesterday afternoon, about dark, for some cause unknown, three negro soldiers commenced firing at a citizen in King-street, near Clifford-street. They pursued the citizen, firing, for some distance, when they were met by the guard of the 6th Infantry, who had been just relieved from duty on the Battery. On learning the circumstances, the white soldiers pursued the negroes, and finally succeeded in capturing two of them and carrying them to the Citadel. The third escaped, minus his clothes, which he pulled off to lighten his weight. Several shots were fired at the retreating darkies, but none took effect.

A NEW YACHT.—Messrs. HARVEY & SON, shipwrights, have just completed a beautiful yacht for Mr. DAYTON, the enterprising proprietor of the Surf House on Sullivan's Island. The steamboat leaves Sullivan's Island for the city at such an early hour that Mr. DAYTON's guests are often compelled to go before the sun is low enough for bathing to be pleasant. On this account Mr. DAYTON has had this boat built in order that his visitors may bathe and leave when it suits their convenience. The yacht is called the *Wassie*, is 30 feet long, and 8 feet 5 inches broad, with a sliding keel or centre board of 7 feet. She is cutter rigged, having a large sail of 70 yards. She can accommodate 40 passengers, and will doubtless soon be a favorite with the patrons of the Surf House, not only as a passage boat, but also for pleasure excursions. This is the third yacht recently built by the same firm. The *Jessie*, which was built for Captain SHARP, and the *Norma*, built for Captain CUTLER, having given entire satisfaction, and reflected great credit on Messrs. HARVEY & SON.

LAUNCH.—On Saturday morning last there was launched from the ship-yard of Mr. S. ZANAGUERA, at Bennett's Mill, East Bay, one of the prettiest little craft that we have ever seen upon the water, and which must reflect great credit upon its builder. The vessel is intended for a steam "Water Boat," and is a propeller, being 50 feet in length, of 16 feet beam, and 5½ feet depth. Her tank is capable of holding 13,000 gallons of water, and she has double engines of thirty horse power each. She has 10 inch cylinders and 10 inch stroke, with an upright tubular boiler of 5 feet 3 inches diameter and 8 feet height, containing 184 two inch tubes, and her propeller is 4 feet 4 inches in diameter, with a pitch of 7 feet. The hull was built by Mr. S. ZANAGUERA of the best oak, cedar, and hackmatack, and is copper-fastened and sheathed with 18 oz. yellow metal. Her engines and machinery are from the well known establishment of JOHN F. TAYLOR & Co., and the blacksmith's work has been executed by Mr. C. A. SCANTLAN.

This fine little steamer, which will be of great service

to our shipping interests, is owned by Mr. J. TOOMEY and the enterprising firm of CRAIG, TOOMEY & Co., and was named the "*Agnes*," in compliment to the wife of Mr. CRAIG, the senior member of that firm.

As a matter of information to our mechanics, we would say that this vessel was built at two thousand dollars less cost than offered by Northern contractors, and one thousand dollars less than by Eastern bidders. Proposals from Wilmington, Del., and Baltimore, approached nearer the Charleston estimates than any others.

We wish the utmost success to the "*Agnes*," her officers, and her worthy and public spirited owners.

THE RE-ESTABLISHMENT OF ORDER.—Our readers will be glad to learn that orders have been issued from the Headquarters of this Military District for the arrest of all vagrants, and to prevent the selling of liquor to freedmen. This is a step in the right direction, and shows that the military authorities appreciate the situation and are determined to do all their power for the restoration of law and order. Below we give the Order in full:

HEADQUARTERS STATE OF SOUTH CAROLINA,
CHARLESTON, S. C., June 29, 1866.

GENERAL ORDERS,
No. 9.

I, The Brevet Major-General Commanding, have noticed, with deep regret, the disposition on the part of freedmen to the city of Charleston and along the roads to disregard their agreements on plantations, to the neglect of the crops, and to either lay idling about their houses, roam at large over the country, or congregate in Charleston and other towns. This total disregard of all obligations to keep their contracts in good faith will cause an entire failure of crops in the State, and the result must be destitution and starvation. The increasing amount of theft, drunkenness and vagrancy demands that the most prompt and severe measures be taken by all officers to check the evil.

II. It is ordered that all men or women who leave the plantation on which they are employed to labor, either by the month, for share of the crops or as renters of land, and thereby neglect their growing crops, be arrested as vagrants and put to work on the public roads, as provided for by Par. XII, G. O. No. 1, Headquarters Department of South Carolina.

All planters who have freedmen employed on their plantations who do not, at this important season of the year, give their entire time to the growing crops, are authorized, if after receiving this order to them and along the roads, or refuse to obey it, to report them at once to the officer in command of the district, who will cause them to be taken from the plantation as vagrants and put to work on the public roads. Their children, if any, will be bound to such persons as will take care of them and learn them habits of industry.

III. A prison will be established for all persons of color convicted of such crimes as are not punishable by death on one of the islands, where employment can be furnished, and all convicts will be compelled to labor from sunrise until sunset, under the control of such guards as will insure their safety. Any person convicted of selling spirituous liquors to a freedman without a permit from some officer having control of the roads, shall be fined not less than one dollar, (\$1) for every offence of which he may be convicted.

IV. Commanding officers will have this order read in the several colored churches in their vicinity, in order that it may become generally understood.

By command of Brevet Major-General R. R. SCOTT,
H. W. SMITH,
Brevet Lieutenant-Colonel and Adjutant-General.

REGULATIONS FOR VOLUNTEERS.—Wherever through the broad South these two forces of the victorious enemy have marched, a marked difference between them has been noted. Where the people were so fortunate as to see but one class of the enemy, an individual acquaintance with both would have no difficulty in deciding from their description which that one was. The comparison was always in favor of the regulars, and especially in regard to officers. With the men it was the effect of discipline and breeding combined. The volunteer officers were braggadoos and bullies, who oppressed, robbed and insulted men, women and children for the mere fun of the thing, and with every accompaniment of brutality which their devilish ingenuity could invent. The regular officers on the other hand treated the people with some semblance of respect. If the orders of the government, or their own evil inclinations compelled them to be robbers or tyrants, they tried to rob and tyrannize in a gentlemanly way. Like the knight of the road in the olden time they took your watch with a smile and your pocket-book with a bow; and like Turkish Sultans they sentenced to death with a compliment. There may be little choices between robbers, but if it is one's fate to be robbed, it is better to fall into the hands of those who will do the thing gently, than into the hands of those who will steal from you and then beat you.

Since the cessation of hostilities, this contrast between the regulars and volunteers has been still more strongly marked. The volunteers have treated the South as conquered and hated foes. Like cowards they have struck their enemy when he was down. The regulars have acted more nobly. Resistance ceased, their fire has subsided. The Confederacy vanished, they recollected that they are the soldiers not of the North or of the South, but of the United States.

Nowhere has this superiority of the regular army over the volunteer corps been more strikingly displayed than in Charleston. We will not dwell on the disagreeable side of the picture. We can afford to bury that in silence, and treat the actors with contempt. It would be unjust, however, not to mention in terms of approval the conduct of the Sixth Regular Infantry, since it has been in our midst, and also the *entente cordiale* which exists between our civil authorities and the officers of that regiment, and other regular officers connected with this military post.

Colonel H. B. CLUTE, who has received a complimentary appointment carrying him North, earned the cordial respect of this community, and it is fortunate for Charleston that he has been succeeded by Major ROY, another efficient officer of the same regiment.

PROVOST COURT, June 30.—It will be noticed on perusal of the proceedings to-day that several cases in which freedmen are charged with capital felonies have been turned over to the Military Commission now in session in this city. As this is the same commission before which the Anderson prisoners were tried, it is to be hoped that the same untiring efforts will be used to bring these negroes to justice, as secured the conviction of those unfortunate men.

United States vs. James McQueen (colored).—Swindling.—This was an interesting case, showing the negro's capacity for freedom, and the spirit and zeal with which he has entered upon his new career of progress.

Sam Williams (colored), sworn.—Witness was present at the swindling. Defendant bet a country darkey a watermelon that he could not hold a strap on a stick; let the country negro win, and then bet him \$3 said won it. Defendant was in cahoot with another fellow, who took the money and went off.

Joseph Green (colored), sworn.—Defendant and another fellow go about town cheating the green country negroes with a leather trick; yesterday, between 9 and 10 A. M., in Chalmers-street, they made a bet with a fellow just from James' Island with watermelons, and won five dollars from him; witness told green negro not to bet; defendant told witness to shut his mouth and to bully him off; the fellow who got away, took the trick and takes the money; but defendant gets the green ones to make the bet, and does all the fighting and bullying; witness thought it was a shame for them to be robbing people, and so had defendant arrested. Guilty; fifteen dollars, and 30 days' hard labor.

United States vs. Joseph Singleton (colored).—Having been arrested for not being able to account for it, Policeman Donovan sworn: Met defendant yesterday, corner of Queen and Meeting streets, with a double-barrelled gun; asked him where he got it, and he said it belonged to Mr. Hapgood; carried him to Guard House, and the Officer of the Day sent me to Hapgood's with him, and Hapgood denied knowing anything about it; defendant said afterwards he got it out of the bushes. Not guilty.

United States vs. Alfred E. Pelet.—Policeman Gerdtz, with Policeman Golding, Wednesday morning, between 3 and 4 o'clock, in Meeting-street, between George-street and Burns lane, saw defendant with clothes, and asked him about them. He said they were his own clothes, and that he was going to the Argus office. He had a red shawl, which he said was his mother's. Told him it was too heavy for this hot weather. Arrested him and took him to guard house. Sergeant Wade said one man was enough to go with him. When opposite guard house defendant struck witness with a slung stick. Witness cried murder, and defendant dropped the clothes and ran through the burnt district. Defendant was arrested again last night. Has known defendant since January 1, and has no doubt of his identity.

Sergt. Wade, of Police, sworn: Last Tuesday morning visited posts of sentinels on Meeting street, and found defendant in custody; inquired cause, and was

told he was arrested with clothes; examined bundle and found a gentleman's shawl, pair of pants, sack coat, pair of boots, and lot of comic plays; stood near defendant; has no doubt of his identity; has seen him often in the guard house, ordered Private Gerdtz to take him to the Guard House; stopped at Charleston Hotel, and remained there some few minutes, and heard the cry of murder; ran down Meeting street and met two gentlemen coming out of the Mills House, and asked where the cry was; they said in the direction of the Court House; went to Guard House and met a party coming out with lanterns to search for prisoner.

United States vs. Daniel Holmes.—Lying drunk in street.—Policeman Golden, sworn: A quarter past one last night arrested defendant for sleeping in market; could not swear that he was drunk, but he was very stupid, and imagined himself on board some raft; smelt no liquor.

Policeman Grey confirms above testimony. Guilty; fined \$2.

United States vs. Handy Green (colored).—Having cotton and not being able to account for it.—Discharged for want of evidence.

Why are not the witnesses held to appear in these cases? The police should recollect that the negroes have as much right to cotton, or guns, or anything else as white people, and that their not being able to account for the possession is only a ground for arrest when they have goods in suspicious circumstances. The suspicious circumstances should be part of the charge, and evidence to prove them should be carefully furnished.

United States vs. Prince Lawrence and Wm. Jones (colored).—Breaking & ore.—Sergeant Nunan of police sworn: Last night, between one and two o'clock, came a boy to Guard House and reported that there were four men at corner of Coming and Morris streets, trying to break into the Mr. Deerson's store; Officer of the Day ordered me to take three men with me and try to arrest them; getting within 150 yards could hear three persons; saw two men, Morris-street, and Wm. Jones; saw a third man, who was a white man, and he came up and then arrested him; he had a pair of old shoes in his hand; went along a little further until opposite Mr. Deerson's store, and saw a head smoking a cigar in the store; made a dash at once at the head and seized it, and he ran through the garden and jumped the fence, and he ran to the store, but there was only a glass door between him and the store, and all the doors were open; when he was arrested he had in his bosom a curtain torn from Deerson's window; also had a coarse bag; window was prized open; defendant said he went to see a woman, but there was no woman there.

James Barclay, sworn: When defendant, Lawrence, jumped the fence, I tried to catch him, but had to pursue him a long time; finally caught him, with assistance of other policemen properly posted. He had in his possession a window bolt and a window curtain. The store was Deerson's. Lawrence claimed the shoes which Williams had.

Deerson sworn: I was aroused out of my bed last night between 1 and 2 o'clock; looked out of window and saw police, who told me to bring down a light, that I was being robbed. The room I, which defendant was found was between the kitchen and the store. The door between the kitchen and store was a solid one; the window must have been broken open for defendant to enter.

Turned over to Military Commission.

U. S. vs. Peter Nelson, Spencer McWay, and John Hanna. Breaking open Ticket Office of Northeastern Railroad. R. Tobin, sworn: Recognizes one of the defendants, as having caught him in the depot; Spencer McWay is the one; witness is watchman at the depot; defendant, Peter Nelson, offered to go across the hole in the office was taken away; Peter Nelson was there too; John Hanna was under the floor, and had great trouble to get him out.

R. J. Pandarvis, sworn: This morning heard a lumbering round the ticket office, and went there and saw defendants, Spencer and McWay; the board over the ticket hole was moved; caught Spencer McWay, who was standing on a barrel, and McWay ran under the depot; put dogs under and run him out; McWay said there was more under there; looked and caught John Hanna; witness is a watchman at the Northeastern Railroad; nobody lives in ticket office. Guilty: each sixty days' hard labor.

United States vs. George Murray (colored).—Stealing a Chair.—Colo sworn: Resides in Charleston; place of business at corner of George and Coming streets; grocery; bought a lot of hams this morning; the hams were being put into store, when drayman cried out to me that some one was stealing a ham off the dray; pursued till to Calhoun-street; caught him and got him to police; defendant is an Irishman, and weighed about ten pounds; defendant was about one square off when first saw him; defendant threatened to mark him, and called him a d—d Dutch son of a b—h; had seven hams and malsed one; the hams were on the dray loose. Sixty days' hard labor on the streets or \$20.

THE CHARLESTON AND KNOXVILLE RAILROAD.—The following resolutions were passed by the Board of Trade in relation to the railroad connections with Charleston, South Carolina, Monday, June 28:

Resolved, That in the opinion of the Board of Trade, a direct railroad connection between Louisville, Ky., and Charleston, S. C., via the Nashville, Tenn., is of the utmost importance to the city of Louisville, and that the construction of the road from Crab Orchard to the Tennessee State line should be commenced immediately.

Resolved, That the President of the Board of Trade be directed to appoint a standing committee, whose duty it should be to confer with the city authorities and the managers of the Louisville and Nashville Railroad on matters of importance to the completion of this road, and to report from time to time to the Board of Trade what measures have and should be taken to accomplish this object.

Resolved, That the thanks of the Board of Trade be due to the delegation from Charleston and Knoxville for the able exposition made on the advantages and necessity of an extension of rail connection between Louisville and Charleston.

Resolved, That a copy of these resolutions be forwarded to the Chairman of the Knoxville and Charleston Delegations.

By order of JOHN B. SMITH, President.
C. H. CLARKE, Secretary.
LOUISVILLE, June 28, 1866.

THE CHOPS IN MARLBORO.—The Journal says: "The weather for several days past has been more favorable for the growing crops than any since they were planted. Warm sunshine during the day and pleasant nights have brought out the cotton wonderfully, and improved the appearance of the corn. Planters have also been able to overcome the grass, which a few weeks ago defied all the efforts and was positively injuring everything. From present indications and information derived from all parts of the District, we think the corn crop will be a very good one for the quantity of land planted, but we cannot expect to realize more than a fourth, and at the best, a third of a cotton crop."

BUSINESS NOTICES.

Auction Sales This Day.

WILBUR & SON will sell, this day, at their sales-rooms, corner of State and Chalmers-streets, at 10½ o'clock, an assortment of parlor and dining-room furniture, Wilder's salamander safe, sundries, &c.

DR. HUMPHREY'S SERRIPHO HOMEOPATHIC REMEDIES for families are viewed with favor by all intelligent citizens, in and out of profession. The medicines or specific for each disease is supplied in proper quantities with full directions in a small book, and they have been the means of effecting very great benefit. The system of having a specific for each particular disease, originated with Dr. H., and has been elaborated and extended with great care, and for their simplicity and efficiency leave but little to be desired. Depot, No. 562 Broadway, N. Y.

What the Illustrious Abernethy said.

"Well, sir, what's the matter?" said ABERNETHY, the great English surgeon, to a cadaverous-looking patient, who had called to consult him. "Oh, nothing serious," was the reply, "my stomach and liver are out of order, that's all." "Do you call that nothing serious?" said ABERNETHY; "I tell you, sir, that when these two organs are out of order, as you call it, there's not a square inch of the body that is not more or less diseased, nor a drop of blood in it that is in a healthy condition." Nothing can be more true; therefore it is of the very highest importance to keep the stomach and liver in a vigorous condition. If the one is weak and the other irregular in its action, tone and control them with HOSTETTER'S CELEBRATED STOMACH BITTERS—the most gentle vegetable Restorative and Alternative that has ever been administered as a cure for Dyspepsia and Liver Disease. It is recommended by distinguished surgeons and physicians of the United States Army, by officers of the Army and Navy, by our first authors, by eminent clergymen—in fact, by thousands of the most intelligent of every class, as an unequalled protective against epidemic and malarious diseases, and as a perfectly innocuous, but at the same time powerful, invigorant and alternative.

TO MEET THE DEMAND FOR
SODA WATER
WE HAVE ADDED A
NEW AND BEAUTIFUL
SODA FOUNTAIN
